

JUNCTION BOX

Description

Junction boxes are widely used during the installation of monitoring systems.

They are necessary to protect and waterproof various junctions of cables.

Gestecno supplies various types of junction boxes, all waterproof and equipped with both inlet and outlet cable glands.

Please Specify

CODE	PRODUCT DESCRIPTION
SCA-011	Junction box, 1 input 1 output
SCA-012	Junction box, 1 input 2 output
SCA-013	Junction box, 1 input 3 output
SCA-014	Junction box, 1 input 4 output
SCA-105	Junction box, 1 input 5 output

Technical Specification

Dimensions	depending on the number of inlets
Cable inlet	IP67 cable glands
Material	aluminium, ABS
Class of protection	from IP65 to IP67
